

SYLLABUS FOR MTH U117 – sequence B – fall 2006

Instructors and Office Hours:

Professor Carla Oblas, 373- 4487, e-mail c.oblas@neu.edu, 532 Nightingale Hall
Office hours: Mon and Thurs 10:30-11:30 and Wed 12:30-1:30, or by appointment.

Course Objectives: This course is designed to develop problem-solving skills while learning to apply mathematics to real life situations. Mathematical concepts to be studied: normal distribution and standard deviation; graphs of linear and non-linear functions, the concept of derivative, derivatives for exponential functions, e ; topics in probability, binomial distributions, central limit theorem, polling theory.

Styles of Learning: This course will make extensive use of collaborative groups, although grading will be based on individual work. It is designed for the student who enjoys hands-on activities, social interaction and pondering mathematical questions.

Books: *The Pit and The Pendulum*, *Small World*, and *Pollsters Dilemma*. Purchase packet at Gnomon Copy. You will need to bring the unit under investigation to class everyday.

Materials: A graphing calculator is required for this course equivalent to the TI 83. You will need to bring this to class everyday. You will need it by the second class meeting. You will also need graph paper.

Attendance: Daily attendance is required. Since emergencies may arise, students are allowed 3 absences. That is 3 absences **no matter what the reason**. Students who have more than four absences will be required to withdraw. **There are no make up tests. Do not miss a test!**

Cell Phones: Keep them turned off!

Help: Besides my office hours, assistance is available at the Math Tutoring Center in room 540 B Nightingale.

Grading: Daily Homework (due on time, 3 late accepted)	10%
Problems of the Week (POWs) (on time and typed)	20%
Portfolios (on time and typed)	20%
Tests	25%
Final	25%

Late Work: Three late home works are allowed, but they must be presented before the portfolio is due. POWs and Portfolios are due on time, they will not be accepted more than one class meeting late. If your printer isn't working you can e-mail me the work or hand in a disk. If you are sick, you can e-mail me your work and hand in attachments when you return.

Proficiency Requirement: Students passing this course with a C or better will satisfy the College of Arts and Sciences Category I mathematics requirement. Students who are seeking to satisfy this requirement but earn less than a C have two choices: 1) retake MTHU117 earn a C or better, or 2) take MTHU115 and receive a C or better.

Finals: Our final is on Dec 15th at 10:30 . No student will be given a request for a special final exam unless it is due to a registrar created conflict. Do not make travel plans that conflict with the final exam.

Note: It is your responsibility to be aware of any changes to this syllabus that are announced in class. Students are responsible for all information given when they are absent.

If you have any concerns about the course that cannot be resolved with me, please see Prof. Martinsinovsky 373-5510, 471 Lake Hall. It is the University policy that no grade, including an incomplete, can be changed after one year. Exceptions must be authorized by the Academic Standing Committee.

Academic Honesty: Cheating will not be tolerated. All work submitted must be your own. If you get help from another individual on the POWs or portfolios, your write-up needs to be in your own words, and you must identify who you worked with. You will be randomly called on to explain your work, so if you get help, make sure you understand it. I will be monitoring the internet and any plagiarism will be cause for me to file a complaint against you.

During exams, cell phones must be put away and you cannot share calculators.

Please refer to the University's policies on cheating and related disciplinary actions that are detailed in your Student Handbook. Incidents of cheating will be reported to the Office of Judicial Affairs, which can lead to suspension or expulsion from the University.

<u>CLASSWORK</u>	<u>HOMEWORK</u> <u>(due next class unless specified)</u>
Sept 6 The Unit Question for Pit and the Pendulum p. 2-5 Time is Relative p. 6 Your Pulse p. 6	a) Building a Pendulum p. 5 POW The Number Fame p. 199 due Sept 13 c) Flipping Coins p.7
Sept 11 What's Rare p. 8-9 Normal Distribution and Standard Deviation (of Pulse data) by hand p.10-13 Standard Deviation using TI 83 (of Pulse and Timing) p.15	a) Penny Weight p. 14 b) Deviation p. 16
Sept 13 The Standard Pendulum p. 17 Pendulum Variations p.19	a) Conclusions about the Standard Pendulum p. 18 b) More on Standard Deviation p.20 c) POW Share and share A-like p. 107-108

Oct 2 Unit Question for Small World How Many People? p 34-36	Eggs and Amebas p.36 POW Security p. 117 due Oct 18
Oct 4 The Rescue p.37 On a Tangent p. 38-39	Doctor's Orders p.40 More On-A-tangent p. 41
Oct 11 Exponential Slopes p.42	The Derivative of x^2 p.43
Oct 16 Find That Base! P.44 Logarithm Review p.45	Natural Logarithms p.46
Oct 18 Generalized Exponential Derivatives p. 47 California and Exponentsp.48	Instantaneous Rate of Change p. 49
Oct 23 Return to Small World Isn't It p. 50 Review Unit	Unit Portfolio p. 51 due Oct 30
Oct 25 Test	

Oct 30 Pollster's Dilemma; Sampling Seniors; p. 53-54	a) Pizza Combinations p. 55 b) Throw back the Little Ones p.56
Nov 1 Ice Cream Combinations and Permutations; p.57 Probability p.59	a) Combinations and Permutations in Sports p.58
Nov 6 Play Ball p. 60 The Theory of Three-Person Polls p. 62-63	a) More Probability p. 61
Nov 8 The Central Limit Theorem Graphing Distributions Normal Areas p. 66-72 Middletown Musings p. 73	Graphs of the Theory p. 64 More Musings p. 74
Nov 13 A Plus for the Community p.75 Mean and Standard Distribution for Probability Distribution p.76-77 The Search is ON! p.78-79	Putting Your Formulas to Work p 80 POW Let's Vote On It p. 116 due Dec 4
Nov 15 From Numbers to Proportion p.81 The Worst Case Scenario p.82 P vs \hat{p} p. 83	Is Twice As Many Twice As Good? P.84
Nov 20 What Does It Mean? P. 85 Pollster's Dilemma Revisited p.88	
Nov 27 Review for test	Portfolio due Dec 6 p. 89

Nov 29 Test	
Dec 4 Review for final	
Dec 6 loose ends
