

MTH U131 (Calculus for Business and Economics) Spring 2007

Instructor: John Frampton, 527 NI, 617-373-5525, j.frampton@neu.edu
Office hours: M 1-2, W 12:30-1:30

Materials: *Calculus Concepts (Brief Third Edition): An Informal Approach to the Mathematics of Change* by LaTorre, Kenelly, Fetta, Harris, Carpenter, Houghton Mifflin, Boston, 2005;
The **TI-83** (or **TI-83 Plus**) or **TI-84** calculator is required. **No other calculator may be used on tests or the project without the explicit permission of your instructor.** A class packet (for Spring 2006) must also be purchased from NU Reprographics (x2766). **Please bring your textbook, packet and calculator to each class.**

Course Content

This course introduces students to the use of derivatives and integrals in solving problems in business and economics, e.g., maximizing profit, calculating average investment income and consumers' surplus. (A more detailed syllabus is given below.) **A project involving optimization is also required.** This project is described in the class packet. The graphing calculator is **used extensively** and prior familiarity with graphing calculators is helpful. Prerequisites: MTH U130 or the equivalent. Note that MTH U131 may be used to satisfy the mathematics proficiency requirement of the College of Arts and Sciences.

Assignments

A list of homework exercises from the textbook and class packet is attached. (This list is subject to revision.) Homework exercises should be done by the next class after they are assigned. Homework exercises from the textbook will not be collected. Even if they are not collected, you are responsible for knowing the solutions of **all** homework exercises. The questions on exams and quizzes will be based on homework exercises, **quiz and test review exercises in the packet** and the material in my lectures. There will also be a set of homework exercises posted on the web site. Due dates for these exercises will be announced in the first week of classes.

Attendance

You are expected in class each day. If for some reason, you are unable to come to a class, then (if possible) please send an e-mail to let me know. Three or more unexplained absences will lower your final grade.

Exams

There will be 7 +1 (web assignments count as one quiz) quizzes (20-30 minutes each), 1 hour test (the midterm), and a 2 hour final exam. (Only the best 6 quiz grades including the web assignment grade will be counted). The final exam will count 40% of your course grade. **All students without legitimate conflicts approved by the instructor will take the final exam on 4/25/2007 at 3:30PM.** The final exam is cumulative and is common for all sections of MTH U131. **Do not make travel plans that conflict with the final exam**

Grading

Your final grade will be determined by the following quantities: Quiz grades (30%); midterm grade (15%); project grade (15%); and final exam score (40%).

The last day to drop a course without receiving a 'W' grade is January 26th. The last date to drop a class with a 'W' is March 30st. As a matter of Math Department policy: The **I grade** (incomplete) will be given only rarely. It is intended to cover real emergency situations in which a student who is doing reasonably well (C or better) is unable, *due to circumstances beyond the student's control*, to complete all course requirements (e.g., is unable to take the final exam due to hospitalization). An **I** may not be used to rescue a failing grade, or to postpone the final.

If you want to see me, but cannot do so during my office hours, then please see me before or after any class to set up a convenient time. Also, please take advantage of the office hours of the other instructors in the course when they are more convenient.

Academic Honesty

Cheating will not be tolerated. All incidents of cheating will be reported to the Office of Judicial Affairs. The University's cheating policy and related disciplinary actions are detailed in the Student Handbook.

Tutoring: There is a free math tutoring center located in the math department on the 5th floor of Nightingale Hall (540B NI). Hours of operation for the spring will be announced. All tutoring is done on a first come first served basis. Students must come in person to schedule appointments. No appointments can be made by phone. Keep in mind: Students go to the tutoring center for help in a dozen different courses and the tutors are not meant to be experts in all of them. The better prepared you are with a specific question, the better able the tutor will be able to help you.

Resolving disputes and complaints: If you are not satisfied with my responses to your serious concerns (including your final course grade), please consult R. Bai, the course coordinator, 541 LA, x5640, e-mail r.bai@neu.edu

Note that the syllabus is tentative. The instructor reserves the right to make changes if necessary. It is the responsibility of each student to stay abreast of what happens in the classroom, changes in the assigned exercises and changes in the dates of quizzes or exams.

1/8: 3.1: average rate of change	HW: 13ab,17, 26a. Read project description in packet
1/10: 3.1 Using the TI-83	HW: 12,13d,14; packet Model Review probs 1,2
1/11: 3.2: Inst. Rate of change 3.3: Derivatives	HW: 3.2: 7a,8,10, 17, 21, 22; 3.3: 2,5,13; 3.4 1a

1/15 Martin Luther King Jr.'s Birthday No Classes

1/17: 4.1: slope graphs; 4.2: Deriv. Rules	HW: packet Algebra Review Probs.1-5
1/18: QUIZ 1 ; 4.3: More Deriv.Rules	HW: 4.2: 1-6(slope equations only), 7-14 4.3: 1-6(slope equations only), 7-14

1/22: 4.2; 4.3

1/24: 4.4: chain rule PROJECT PART A DUE	HW: 4.4: 9,10,14
--	------------------

1/25 : QUIZ 2 ;	HW: 4.4: 17-26
------------------------	----------------

(1/26: Last day to drop a course without receiving a "W" grade)

1/29: 4.4: chain rule	HW: 4.4: 27-37
-----------------------	----------------

1/31: 4.5: Product Rule	HW:4.5: 10-26
-------------------------	---------------

2/1: 4.2, 4.3 (word problems) Using nDeriv on the TI-83	HW: 4.2: 21(a)(b), 24, 25 abcd, 26 packet Compound Interest Review Probs: 1,2
--	--

2/5: 4.4 (word problems)	HW: 4.3: 16(a)(b)(c), 22, 23(a)(b)(c)
--------------------------	---------------------------------------

2/7: 4.4 (word problems)	HW: 4.4: 41(ignore per cent rate of change),42ab,44,45
--------------------------	--

PROJECT PART B DUE

2/8 QUIZ 3 ;4.5 (word problems)	HW: 4.5: 4, 28,30abcde
--	------------------------

2/12: 5.1: Approximating change $f(x+h)-f(x) \approx f'(x)h$ Marginal Revenue, Marginal Cost, Marginal Profit	HW: 5.1: 3,5,6, 17abc, 18abc, 19abc, 20ab packet Algebra Review Probs 6-12
--	---

2/14: 5.2: Optimization	HW: packet Optimization problems 1-10
-------------------------	---------------------------------------

2/15: 5.2 (using calculator)	HW: 5.2: 17a, 24, 29 HW: 5.2: 25 (like project optimization);
------------------------------	--

2/19: President's Day No Classes

2/21: Midterm Review

2/22: **MIDTERM**

2/26: 5.3: Second derivative, Inflection Points; HW: 5.3: 2, 29
Notes on Optimization (class packet) HW: packet Optimization problems 11-14
PROJECT PART C DUE

MTH U131 **Schedule** **Spring 2006**

2/28: Finding inf. pts using the TI-83 (class packet) HW: 5.3: 7, 9, 14, 20

3/1: 6.4 Antiderivatives HW: packet Anti-derivative problems 1-5

3/5 to 3/9 Spring Break

3/12: **Quiz -4;**

3/14 6.4: Antiderivatives (continued) HW: 6.4: 9-14
PROJECT PART D DUE

3/15: 6.4: The general antiderivative HW: 6.4: 15, 17
Finding a specific antiderivative packet Antiderivative problems 6-10

3/19 6.4 Word problems HW: 6.4: 19-21
3/21 : **QUIZ 5** HW: 6.4 26,27,33

PROJECT PART E DUE

3/22: 6.1: Accumulated change HW: 6.1: 8ac, 13a, 18ab
Area approximation

3/26: **PROJECT PRESENTATION**

3/28: **PROJECT PRESENTATION**

3/29: 6.2: The definite integral HW: 6.2: 1, 4
6.4: Fundamental Theorem of Calculus HW: 6.4: 1-4

(3/30: Last day to drop a course with a "W" grade.)

4/2: **QUIZ 6**

4/4: 6.5: Evaluating definite integrals HW: 6.5: 8c,9c,10c,11c
using FTC packet Additional Definite integral problems

4/5: 6.5: Setting up, interpreting definite integrals HW: 6.5: 13,15,21,23
Using fnInt on the TI-83

4/9: 6.6: Average value of a function HW: 6.6: 2,5,10

4/11: **Quiz 7**

4/12 Review for Final Exam

4/16 Patriot's Day No Classes

4/18 Review for Final Exam
