

MATH U141 Spring 06 - Syllabus part C for Calculus I

TEXT: Hughes-Hallett et al, *Applied Calculus*, 3rd ed.,2006 (green cover)
ISBN #10;0-471-68121-0, John Wiley & Sons, Chapters 1-5,part of 7,10.
CLASSPAC: Math U141 Spring 06 (available at NU Reprographics about Jan 16).

Prerequisites: Knowledge of basic algebra at the level of MTHU121, including an introduction to functions and their graphs. A placement quiz will be given at the start of the course: you can use the result to gauge your preparation.

Differential Calculus is the study of rate of change, and its uses.
Integral Calculus is the study of amount given the rate of flow.

Goals: To develop *graphical*, *numerical*, and *algorithmic* understanding of

1. The basic ideas of differential calculus, including
Average and instantaneous rates of change, Definition of the derivative of a function at a point, the Derivative function.
2. Basic functions – such as polynomial, exponential, logarithmic, trigonometric, using the graphing calculator as a tool.
3. Applying calculus to optimize functions (max and min), to motion problems, mathematical models of physical/biological processes.
4. The basic ideas of integral calculus: accumulated change, amount from flow, area under a curve (introduction).
5. *Students completing the course should be able to recognize and use the concepts and methods of calculus when they occur in their disciplines.*

Class Notes Webpage It will have specific assignments for this section.
<http://www.math.neu.edu/~iarrobino/AIMathU141.Spr06.classnotes>

We will focus quickly on the concepts of average rate, instantaneous rate, and derivative function in Sections 1.3, 2.1-2.3. We will then broaden the types of functions studied (1.5-1.10) as we extend the differential calculus in Chapter 3, and apply the concepts in Chapters 4, 10. We introduce integral calculus in Chapter 5, and study differential equations (Chapter 10).

Following is an overall syllabus. I will make specific assignments from this syllabus and also from the Class Pac and post at Class Notes website. Note: * for Optional.
